## COMMISSIONERS AT WORK.

PETITIONS PRESENTED BY THE PA-  
CIFIC RAILROAD COMPANIES.

The Interstate Commerce Commissioners  
Discover That They Have Plenty to Do.  
Numerous Telegrams Received Daily.  
Death of Major John E. Blaine.

WASHINGTON, April 22.—The Southern  
Pacific railroad company presented to the  
interstate commerce commission this morn-  
ing a petition which sets forth that the cor-  
poration is in competition in the matter of  
through passengers and freights with the  
Canadian Pacific railroad, the mail steamship  
clippers and tramp steamers, and that the  
business, while practically of the same char-  
acter, is done under dissimilar conditions.  
The Transcontinental railroad, in conjunction  
with the Southern Pacific railroad, have  
agreed upon two tariffs; one based upon the  
assumption that the fourth section of the law  
does apply, and the other does not apply to  
business for which the lines compete.

The petitioners argue at length that in case  
they should adhere to the first schedule the  
result would be the loss of a greater part of  
through business, and that the effect of this  
schedule has been to reduce the through busi-  
ness 90 per cent. On the other hand they  
claim that if the rates for intermediate local  
traffic should be reduced to rates not greater  
than those necessary to enable the petitioners  
to do any considerable part of the through  
business the earnings of the railroad com-  
panies would be wholly inadequate to pay  
expenses. In view of these facts the trans-  
continental lines, before putting into effect  
such tariffs as they deem the law demands,  
invoke the suspension of the long and short  
haul clause, and ask that they be permitted  
to charge less for longer than for shorter  
hauls.

Mr. Charles H. Tweed, of New York, in  
support of the petition presented by the  
Southern Pacific Railroad company, ad-  
dressed the commission. In answer to a  
question by Commissioner Cooley, he said  
that his road had not prepared a schedule of  
rates for submission to the commission for  
the reason that if their prayers were granted,  
the Canadian Pacific railroad would cut  
charges, so that the relief would be only tem-  
porary.

General Eastern Agent Hawley, of the  
Southern Pacific railroad, testified in sup-  
port of the petition that the rates of the car-  
riers named in the petition were so low that  
they were simply ruinous; and to meet this  
competition the Pacific road had either to  
meet these low rates or lose all the busi-  
ness. At present, he said, on account of the  
new law, all freight from the east to the  
west was being transported by the Canadian  
Pacific road, by Clipper ships and the Pa-  
cific Mail company's steamers. He was sub-  
jected to a searching cross-examination by  
Mr. E. N. Taft, of New York, representing  
the Clipper lines. Ex-Senator Van Wyck  
also took a hand in the examination, asking  
particularly about freights from Omaha.

Mr. A. T. Britton representing the Atchi-  
son, Topeka & Santa Fe railroad, presented  
a petition and spoke in support of it. He  
took the ground that under the law the clip-  
per vessels had fixed their rates just low  
enough to secure business, but that those  
rates were of no advantage to shippers.  
After setting forth the hardship under which  
the railroad was placed by the operation of  
the law, Mr. Britton closed by asking that  
his road be allowed to charge less for a long  
haul than for a short haul.

Ex-Secretary Belknap, on behalf of the  
St. Louis & San Francisco railroad, pre-  
sented a petition that if they were not re-  
lieved from the operations of the fourth  
section of the law they could not compete  
with water routes in carrying the produc-  
tions of California.

Col. George Gray, representing the North-  
ern Pacific railroad, gave notice that he  
would file a petition of similar purport.

Mr. Goddard, assistant general manager of  
the Atchison, Topeka & Santa Fe road, lo-  
cated at Topeka, stated that since the pas-  
sage of the interstate commerce law, rates have  
been materially advanced by the Clipper and  
tramp vessels doing business between Cali-  
fornia and New York and Boston. Having  
charge of all freight business he could state  
from personal observation that since the  
passage of the law his road had done abso-  
lutely no through business from California  
to the east, as they could not under the law  
meet the rates charged by water routes. In  
answer to Commissioner Walker, Mr. God-  
dard said that a general conference in Chi-  
cago, a few weeks ago, between all of the  
Pacific railroad officers, through rates were  
advanced perhaps three-fold.

The former rate on sugar from San Fran-  
cisco to Kansas City was sixty cents per 100  
pounds; now it is \$1.45 per 100 pounds, which  
was in keeping with the new schedule  
adopted. In reply to a question by ex-Senator  
Van Wyck, he stated that the rates in  
Kansas were fixed by consultation between  
the railroad commission of Kansas and the  
railroad officials. In reply to Commissioner  
Cooley, Mr. Goddard stated that in his opin-  
ion no relief was necessary or desired, for  
from fruit, perhaps relief was wanted for  
canned goods. The time required from Cali-  
fornia to New York for freights was about  
twenty-three days.

Mr. E. N. Taft presented a petition of But-  
ton & Co., of New York, protesting against  
suspending the fourth section of the bill in  
the interest of the railroads as it would de-  
stroy the clipper carrying trade of the coun-  
try, against which the transcontinental lines  
had waged unrelenting war.

Telegrams were received by the interstate  
commerce commission this morning signed  
by numerous fruit growers of Santa Clara  
county, California, earnestly asking the com-  
mission to give them competition by quick  
transit, as the fruit could not be shipped at  
the present absolutely prohibitory rates; also  
from J. Brandell, manager of the Alexander  
quicksilver mine of California, saying as  
their product comes into competition with  
Spanish quicksilver in the New York mar-  
ket, the rates for transcontinental passage  
are so high that California quicksilver is  
shut out of the market; from C. M. Wicker,  
of Chicago, asking to be heard in reply to  
the transcontinental lines on the suspension  
of the long and short haul clause;  
from the president of the Manu-  
facturers' association of San Francisco  
asking that action on the fourth section, as

regards transcontinental lines, be deferred  
until a memorial from the chamber of com-  
merce be received from the Manufacturers'  
Association of San Francisco the following  
resolutions: "That the general good of the  
people of the Pacific coast, particularly in  
their manufacturing and industrial pursuits,  
will be promoted by the enforcement of the  
fourth section;" from numerous fruit dealers  
of San Francisco asking the suspension of the  
fourth section so their fruit may be shipped  
east; and from the chamber of commerce of  
San Francisco asking exception of such in-  
dustries and special cases as absolutely re-  
quire rapid transit.

Death of Major John E. Blaine.

WASHINGTON, April 22.—A dispatch re-  
ceived at the war department announces the  
death this morning at Hot Springs, Ark., of  
Maj. John E. Blaine, the younger brother of  
James G. Blaine.

## EXCITEMENT IN MEXICO'S CAPITAL.

Interesting Session of the House of Repre-  
sentatives Over the Selection of a President.

CITY OF MEXICO, April 22.—There was  
another exciting session of the house of de-  
puties last evening upon the constitutional  
amendment looking to the selection of Diaz.  
The three tiers of galleries allotted to the  
public were packed, and many were refused  
admittance, such was the pressure. The audi-  
tories were very demonstrative. Cheers and  
hisses were intermingled, but in accordance  
with the Mexican custom there was no inter-  
ference with the expression of sentiment from  
the galleries.

Gustavo Baz led off in the debate, and  
was followed by Florencio Florenx, who was  
the favorite speaker of the evening. He took  
ground in favor of the re-election of Diaz,  
and was loudly applauded. Tuesday evening  
the minority or the opposition to re-elec-  
tion had the best of it with the galleries.  
Last evening the administration was in the  
ascendancy. Florenx was followed by Cos-  
sue, and the discussion was prolonged until a  
late hour.

## Burning Express Train.

NEW YORK, April 22.—A fire broke out  
on the Southern & Boston express train on  
the Pennsylvania railway yesterday evening  
a few minutes after it left the Broad street  
station in Philadelphia for this city. The  
gas which had escaped from a leaking pipe in  
the closet of one of the cars had become  
ignited. The train was running at the rate  
of thirty miles an hour, and the flames were  
fanned so that one corner of the car was  
ablaze before the train was stopped. Volun-  
teer firemen armed themselves with fire ex-  
tinguishers from the Pullman palace cars  
and soon put out the fire. The car belonged  
to the Philadelphia, Wilmington & Balti-  
more Railroad company. It was crowded  
with passengers who were panic stricken when  
the fire was discovered.

## Two Men Fall Five Stories.

CONNEERSVILLE, Ind., April 22.—Despite  
frequent warnings not to use the elevator in  
the Cooley & Morrison furniture factory, three  
men, Robert Hampson, William Barkus  
and John McCormick—this morning  
attempted to ascend. The rickety old struc-  
ture had reached the fifth floor when the  
rotten rope parted and the elevator fell swift  
as a flash to the basement, shattering it into  
fragments. Hampson was instantly killed.  
He was a man of thirty, residing in Frank-  
lin county. A widow and three children  
survive him. William Barkus, aged fifty-  
five, sustained a broken back and other in-  
juries, and will die. His family of wife and  
children live in Liberty, Ind. John McCorm-  
ick was so badly hurt that his recovery is  
doubtful.

## Prohibition in Texas Politics.

AUSTIN, Tex., April 22.—Congressman  
Culbertson's letter favoring prohibition, is  
considered by the temperance people a pow-  
erful document, and a report that he will  
stamp the state has elicited the Prohibition-  
ists. Prominent Republicans have called a  
meeting with a view to determine what po-  
sition the Republicans as a party will take  
on the question. J. B. Rector, of this city,  
chairman of the State Republican Executive  
committee, is adverse to the Republicans as  
a party, taking either side, but it is believed  
that the party will declare against prohibi-  
tion, as John Cochran, the Republican  
candidate for governor in the last election, and  
other prominent Republicans, are already in  
the field against prohibition.

## Murder in Jail.

NICHOLASVILLE, Ky., April 22.—Joe Shel-  
ton, in jail here for the murder of his mother  
at Keene, near here, last fall, this morning  
at 7 o'clock added another murder to his  
string. Shelton was joking with Sam Mil-  
lion when he was angered by some remark,  
and jumping to his feet wrenched the iron  
side bar of one of the cell beds from its fast-  
enings, and dealt Million a terrific blow on  
the head, instantly killing him. Both were  
colored. Shelton at the examination for the  
murder of his mother was pronounced in-  
sane.

SAN FRANCISCO, Cal., April 22.—Queen  
Kapiolani, of the Hawaiian kingdom, ar-  
rived yesterday from Honolulu on the  
steamer Australia. She was accompanied  
by Princess Liliohokalani and a number of  
high officials of the Hawaiian government.  
The principal object of the queen's voyage is  
to be present at Queen Victoria's jubilee ce-  
lebration in London in June next. The royal  
party will remain here about a week, when  
they will leave for Washington to pay their  
respects to president and Mrs. Cleveland.  
After a short stay at the capital they will  
proceed to New York and thence to London  
before returning. Queen Kapiolani will also  
visit the principal cities of the world. She  
has never before been outside of her king-  
dom.

## McCormick Released.

CHICAGO, April 22.—McCormick, the  
pitcher of the Chicago base ball club, has  
been released to the Pittsburgh club, which  
pays a bonus of \$24,000, and also releases Van-  
hullen, the noted California pitcher, to the  
Chicago club. It is thought this deal will give  
the Chicago club the strength it now needs.

## Elevated Road Bill Defeated.

ALBANY, N. Y., April 22.—The bill for an  
elevated railroad through Broadway, New  
York, was defeated by the legislature this  
morning.

## High License in Massachusetts.

BOSTON, April 22.—The high license bill  
was ordered to a third reading in the house  
to-day by a vote of 183 to 83.

## IN THE WORLD OF LABOR.

THE KNIGHTS OF LABOR TO AT-  
TEMPT AN IMPORTANT MEASURE.

They Propose to Go Into the Cooper Busi-  
ness, But the Minneapolis Millers De-  
cidedly Object—Chicago Bakers Demand  
a Change in Their Mode of Work.

MINNEAPOLIS, Minn., April 22.—One of  
the most important measures ever attempted  
by the Knights of Labor in the northwest  
has been proposed to the millers. For many  
years past there has been great trouble with  
the coopers, they claiming it was impossible  
for them to make living wages. The knights  
now propose to place all the boss shops of the  
city under the management of the commit-  
tee of the Knights of Labor. The committee  
is to fix a fair selling price and a fair price  
to pay the coopers for making the barrels.  
The committee will appoint a general agent  
to look after the business.

The proprietors of the shops are to receive  
a fair rental for their shops, and a considera-  
tion for the taxes, insurance and running ex-  
penses. If the measure becomes operative,  
there is no doubt there will be considerable  
advance in the price of barrels. If the  
millers refuse to use the Knights of Labor  
barrels, it will result in the boycott of their  
flour. The millers held a secret session yester-  
day to consider the matter. It was unani-  
mously resolved to fight the scheme to the  
end. They will pay what they consider a  
fair price for barrels, and if it is not accepta-  
ble to the coopers, they will shut  
down, as it was agreed that under no cir-  
cumstances would they submit to dictation from  
the knights.

## Bakers' Demands.

CHICAGO, April 22.—The executive com-  
mittee of the International bakers' union No.  
49, of Chicago, has prepared a manifesto to  
employers, stating that the bakers have re-  
solved that on and after May 1 next, "Ten  
hours shall constitute a day's work, except  
Saturday, when twelve hours shall constitute  
a day's work; that six days shall constitute a  
week's work, so that in various shops the  
Sunday work for cake bakers may be done  
away with; that no employer shall board his  
employees, nor shall the employee live with  
said employer, but that the employer shall  
pay his employees \$1 per week for board; that  
no baker shall help to unload flour; that the  
employers shall be duty bound to request  
their employees to join the bakers' union."

It is stated that a copy of this manifesto  
will be sent to every employer and employee  
in the city, and that any boss who refused to  
sign it would be immediately boycotted and  
his men called out. It is stated also that no  
attempt will be made at this time for a  
higher scale of wages; that no general strike  
among the bakers is imminent, though con-  
siderable disturbance is expected in shops  
where the boss will refuse to sign.

## Threaten to Strike Again.

NEW YORK, April 22.—The World says:  
From present indications the strike of the  
1,500 employees of the Standard Oil company,  
in Greenpoint, Hunter's Point and Williams-  
burg is not improbable in the near future.  
There is general dissatisfaction by the union  
men at the treatment they have received  
since they returned to work after the strike  
in February, when they went out in sym-  
pathy with the coal handlers. It is said the  
active men in the organization are being  
discharged, and the returned strikers are  
being overworked and generally imposed upon.  
The matter will be the consideration at the  
next meeting of the local assembly.

## Increasing Their Employees' Salaries.

PORTLAND, Me., April 22.—The Portland  
Horse Railway company have raised the pay  
of all the men in their employ \$5 a month,  
and promised another advance of \$5 a month  
within six months, in the event of the road  
paying enough to warrant the second in-  
crease. The men asked for an advance of  
\$10, but after a very pleasantly conducted  
conference accepted the offer of the com-  
pany. Under the new scale the men will aver-  
age \$45 a month.

## Stove Molders' Troubles Extending.

ROCHESTER, N. Y., April 22.—The execu-  
tive committee of the Second, Third and  
Fourth districts of the Stove Molders' Na-  
tional Defense association, has decided that  
the patterns of foundries where strikes are  
existing shall be ordered into the Second dis-  
trict, which comprises the states of New  
York, New Jersey, Maryland, Virginia and  
that part of Pennsylvania east of the Alle-  
gheny mountains. The strike will now be-  
come national.

## A Battle Between Two Sheriffs.

ST. LOUIS, April 22.—A special from Pop-  
lar Bluff, Mo., says: Tuesday night Constable  
Charles Barfield, of Butler county, went to  
Neeleyville with a posse of a half dozen  
deputies to arrest two outlaws, desperate fel-  
lows, and finding them away from the house,  
quietly took possession to await their return.  
On the same night the Ripley county sheriff  
came to Neeleyville on the same mission.  
The affairs of both parties were so secretly  
carried out that neither knew of the other's  
presence. The Butler county men had hardly  
taken possession when they heard the Ripley  
county deputies approaching and supposed  
they were the outlaws who had come with a  
large force. Scarcely had the Ripley men  
surrounded the house before the Butler de-  
puties opened a fusillade upon them with Win-  
chester rifles. The fire was returned and for  
several hours the deputies waged a desultory  
warfare. At daylight the besieged recog-  
nized the besieging party and a parley was  
effected which ended the battle. Two men  
were wounded, though not fatally. The  
outlaws have left the country.

## Land Slide Wreck.

PITTSBURG, April 22.—Freight train No.  
161, on the Pittsburgh, McKeesport & Yough-  
iogheny railway, ran into a land slide near  
Layton station, at 9 o'clock this morning.  
The engine and eight cars were overturned.  
The fireman and front brakeman were  
buried under the wreck and instantly killed.  
Names unknown.

## Prohibition Defeated by One Vote.

ST. JOHNS, N. F., April 22.—The bill for  
the total prohibition of the liquor traffic in  
this colony was defeated in the assembly by  
the casting of a vote by the speaker.

## UNITED STATES AND MEXICO.

An Incident Which May Cause Trouble  
Between the Two Governments.

TAMPA, Fla., April 22.—News has reached  
here of an incident which may involve this  
government in a controversy with Mexico.  
Last month the Norwegian bark Brasolana  
went ashore off Cozumel, Mexico. The  
schooner Nellie Blanche sailed from Key  
West to render assistance. She found that  
the bark's cargo had been taken ashore, the  
schooner stripped, and everything sold or con-  
fiscated by the Mexican authorities. The  
crew were held as prisoners, on what ground  
could not be learned. A Mexican customs  
officer boarded the Blanche, took her papers  
ashore and then returned with the informa-  
tion that the Blanche could not clear from  
Cozumel for Key West, but must go to Pro-  
greso, 240 miles further south, to do so.

Capt. Russell, of the Blanche, protested  
against taking his vessel so far out of the  
way, but offered to go in person. The Mexi-  
cans, however, insisted that his vessel should  
make the trip, and placed a customs inspector  
on board to take her to Progreso. This  
morning the vessel sailed into Key West.  
The captain says his crew would not sail the  
vessel to Progreso, and that they brought her  
to Key West, the Mexican inspector, of  
course, being also forced to make the trip.  
The inspector is now in telegraphic com-  
munication with his government.

## Not a Defy After All.

NEW ORLEANS, April 22.—Since the pub-  
lication of the report sent out from Key West  
that Commander Green, of the Yantic, had  
forbidden the seizure of the Island of Tortu-  
gas by the British, every effort has been  
made to get a direct statement from Com-  
mander Green on the subject. The Yantic  
had left Key West before that remote point  
could be reached, but she was boarded at  
Pensacola yesterday by a reporter. Green  
said the matter had been greatly exagger-  
ated and the story of his protest against  
British action at Port au Prince had no  
foundation. The fact is that Clement Hill, a  
British official was sent to the West Indies to  
settle various matters, one of which was the  
negotiations by British subjects. No forcible  
action was threatened. The island is en-  
tirely without harbors, and is only valuable  
for the maffogny and other trees which  
cover its almost inaccessible hills.

## Danenhower's Body Taken to Washington.

ANNAPOLIS, Md., April 22.—The remains  
of Lieut. Danenhower were taken to  
Washington on the noon train to-day for  
burial. The body was escorted to the rail-  
way depot by the officers' band, marines and  
sailors of the academy. The band, playing  
a funeral march, headed the cortege, and  
was followed by the marines with arms re-  
versed. Three officers marched on either  
side of the hearse. The coffin was covered  
with the American flag. Immediately be-  
hind the hearse came a body of sailors, fol-  
lowed by the officers of the academy, in full  
uniform. Commandant of Cadets Hunting-  
ton, and Superintendent Sampson brought  
up the rear. There is a feeling of profound  
regret in Annapolis at Lieut. Danen-  
hower's sudden taking off, for he was an un-  
iversal favorite.

## Fatal Freight Wreck.

NEW ALBANY, Ind., April 22.—Yesterday  
one of the cars on the regular Air-line  
freight jumped the track near Taswell, caus-  
ing the cars of a construction train, which  
was hitched on behind, to telescope. A num-  
ber of men seated on the ties with which the  
construction train was loaded were killed or  
badly injured. The killed are L. M. Clews,  
Martin Brackins, and B. F. Goldman; fatally  
hurt and dying, Charles F. Bland; painfully  
hurt but not fatally hurt, John Ingels and George  
Gorman. All the killed and wounded are  
residents of the vicinity of Taswell, Craw-  
ford county. This accident was the most  
destructive of life that ever occurred on the  
road, and the tracks were not cleared for  
the passage of trains for twelve hours.

## Missing Minister Found.

CHICAGO, April 22.—Rev. Robert W.  
Springer, assistant rector of Grace Episcopal  
church, who disappeared mysteriously from  
the Commercial hotel Monday night, turned  
up at his sister's home in this city, and was  
at once removed to St. Luke's hospital, where  
it was discovered that he was suffering from  
congestion of the brain, doubtless produced  
by overwork. It is supposed that after he  
left his hotel Monday night he went to some  
obscure lodging house and remained hidden  
away until he obeyed an impulse to go to his  
sister's. He will probably shortly recover  
his mental and physical health.

## Carried Away By Rising Waters.

EVANSVILLE, Ind., April 22.—The recent  
rains between this city and Louisville have  
caused the river and its tributaries to rise so  
rapidly that an immense amount of lumber  
and staves placed on the bank for shipment  
have been carried away by the rising waters.  
The heaviest loss yet reported is that of the  
Cincinnati Cooperage company, which has a  
great many whisky barrel staves carried out  
of Clover Creek; also 700,000 beer keg staves  
which were on the bank at Hawesville, Ky.  
Their loss is estimated at fully \$8,000.

## Not a Very Long Sentence.

WORCESTER, Mass., April 22.—This morn-  
ing Patrick McDonald was sentenced by  
Judge Field, of the supreme court, to state  
prison for life, one day solitary confinement  
for the murder of his wife at Athol, August  
19, 1886. McDonald is said to be over sev-  
enty years old and has been in jail ever  
since the tragedy. He is much bent and is  
apparently saddened by his crime. McDon-  
ald had no trial on the agreement which the  
court made to accept a plea of guilty of  
murder in the second degree.

## A Millionaire Assigns.

UTICA, N. Y., April 22.—A general as-  
signment of George Clark, the millionaire  
land owner and hop dealer of Springfield,  
Otsego county, was filed in the Otsego county  
clerk's office to-day. There are \$200,000 un-  
satisfied judgments outstanding against him.  
He owned vast tracts of land in Otsego,

## Portsmouth Kills Local Option.

PORTSMOUTH, O., April 22.—The new  
council organized last night with Enoch J.  
Salt president. The meeting opened with  
prayer by Rev. Carney, the first instance of  
the kind in the history of this city's council  
proceedings. A petition for an election on  
the local option question was presented and  
promptly tabled indefinitely, thus ending

## Democratic Convention.

We are authorized by Judge E. Whitaker to say that the Democratic convention to select delegates to represent Mason County in the State Convention in Louisville, May 4, 1887, will be held in this city, at 1 o'clock, Saturday, April 23, 1887. This is published in answer to numerous inquiries on the subject.

The gubernatorial fight in Bracken is between Hines and Berry, with the Judge far in the lead.

The Buckner men in Bourbon cavort around as though they thought Senator Harris ought to have kept out of that county.

The Democrats of Kentucky will select delegates to-morrow to the State convention, and the fight will be red hot in a great many counties.

Covington has legislated the cows off her streets, or rather has passed an ordinance for that purpose. A violation of the law is punished by a fine of from \$3 to \$20.

The means that Senator Harris' enemies have resorted to to down him in Fayette, Clark and other counties show they are frightened out of their boots, and fear defeat.

MADISONVILLE, Ky., has organized a stock company with a capital of \$100,000 to deal in realty and to advertise and boom the place. It looks like \$100,000 ought to get up a pretty good-sized boom.

Judge Houston, of Boyd County, has telegraphed to a friend here that he is a candidate in earnest for Register of the Land Office. He is said to be a staunch Democrat, and a worthy gentleman, every way qualified for the office.

The Union Labor party, at Covington, will have a full ticket in the field for all the local offices at the next election. The Democrats are reported ready for the contest, and are glad of an opportunity to test the strength of the new party.

Ex-Governor Jacob D. Cox, of Ohio, thinks the Inter-State Commerce law will usher in "a new era of commercial prosperity." He suggests that the "general public just hold their horses," and give the bill a fair chance to get in its work.

We expect good news from the county conventions throughout the State to-morrow. Senator Harris is undoubtedly in the lead for Governor, judging by the tone of our exchanges. Nothing but combinations can keep him out of the nomination.

Judge M. H. Houston, of Boyd County, is a candidate for Register of the Land Office, and is a man every way fitted for the place. He trusts the Democrats of Mason will remember this Saturday, and he will appreciate any favors they may show him.

It is estimated that four hundred and forty miles of railroad will be built in Kentucky this year. A few years with such a record and the old Commonwealth will be "jerked out of the rut," and will be gliding smoothly along on wheels. Railroads are the one thing needed to make Kentucky one of the richest States in all this broad land.

The firm of Proctor & Gamble, soap manufacturers of Cincinnati, have made arrangements with their employees whereby the latter are all to share in the profits of the enterprise from this time on. This is a item of news that is not often chronicled now-a-days. The spirit manifested by the firm in this move will undoubtedly be adopted by others, and profit-sharing by employer and employee may become more general.

REPORTS from Harrison indicate that the Democratic convention to come off at Cynthiana to-morrow will be more exciting and warmly contested than any that has ever taken place in that county. "The Buckner men have been claiming everything," says a correspondent of the Covington Commonwealth, "for their champion with a bravado and confidence surprising to behold. The Harris men, upon the contrary, have been modest in their demeanor and conceded almost everything that the Buckner men claimed but have been, nevertheless, getting in very effective work for their man in a quiet way, and I should not, from present utterances, be surprised if this county sent a solid delegation, in favor of Harris to the Louisville convention."

## A Suggestion.

The Democrats of Mason County ought to settle their troubles at home. We are opposed to taking our quarrels to Louisville, and it will be to the interest of all to make some concessions. The party in this county is not in a condition to indulge in these factious quarrels. All will recognize the truth of this.

While we honestly and firmly believe Senator Harris has carried this county, and is entitled to the delegation at Louisville, and will have it, if the present state of affairs continue, still, in the interest of harmony in the ranks here at home, we think the contest in precinct No. 2 had better be compromised. It can be done, and it should be done; and it will be done if the friends of Senator Harris and Judge Hines have the welfare of the party here in Mason County at heart.

All will admit that the contest in precinct No. 2 was exceedingly close. If the vote of that precinct be divided, the convention to-morrow will stand twenty-eight for Senator Harris and twenty-six for Judge Hines. The county is entitled to thirteen delegates in the Louisville convention. All things considered, wouldn't it be best to settle the matter here? Give Senator Harris seven of the votes and Judge Hines six, with the understanding that, in case one withdraws or is dropped, the other is to have the entire delegation. It must be conceded that this would be an exceedingly fair and just divide, and an equitable settlement of the trouble.

This is wholly and entirely a suggestion of our own, and we do not know whether Senator Harris' friends and leaders will sanction what we say. We earnestly espouse the Senator's cause, but have not consulted his managers here as to this suggestion. We offer it in the interest of harmony, and for this purpose alone. We think it best for all, and we trust that both factions will see the wisdom of this and take some action at once.

We are for harmony first, Senator Harris next, and then for Judge Hines.

## One Word for Senator Harris.

Hon. C. J. Bronston, Commonwealth's Attorney for the Fayette County district, made a speech at Lexington the other evening to an enthusiastic crowd. It was a political speech, and during his remarks he said: "One word for Mr. Harris and I have done. Mr. Chairman, I have known Mr. Harris from my childhood. He has always been my personal friend, and in my earliest youthful aspirations he and his lamented father were my warmest friends. His life, civil, social and political, are familiarly and thoroughly known to me. Politically, I assure you he has always been the most active, liberal and earnest worker in our county. Whenever his party called either for his time, services, or means, he has responded. I personally know all the facts connected with his votes for Burnham and Ballard, and not only did those votes not effect his Democracy in Madison, but had he failed to cast them he would have sacrificed his manhood and lost the respect of his friends. After both of these votes were cast he was elected to and served as chairman of the Democratic county committee and member of the State executive committee for many years, with credit to himself and satisfaction to his party. As a citizen, he has been public spirited, liberal, law-abiding and worthy. As a man, he received a collegiate education, but has spent his whole life successfully as a hard-working and attentive farmer. He is hospitable and kind as a neighbor. No man, be he laborer, mechanic, lawyer, preacher, or doctor, has ever failed to receive from him that cordial reception, which his merits deserved. Firm, steadfast, and true in his friendships, should he be elected Governor, I can safely promise a faithful performance of the trust, and whilst in office you will not be forced to gain entrance to the sanctum through courtesy of wealth, prominence and red tape, but the humblest one of your number can present your cause, with the assurance that if worthy it shall be heard. But permit me for him to say that whatever may be the result of this campaign, he will never cease to be grateful to you and the good people of Kentucky for the encouragement extended to him."

## There Shall be no Alps.

When Napoleon talked of invading Italy one of his officers said: "But, sire, remember the Alps." To an ordinary man these would have seemed simply insurmountable, but Napoleon responded eagerly: "There shall be no Alps." So the famous Simplon pass was made. Disease, like a mountain, stands in the way of fame, fortune and honor to many who by Dr. Pierce's "Golden Medical Discovery" might be healed and so the mountain would disappear. It is specific for all blood, chronic lung and liver diseases, such as consumption (which is scrofula of the lungs), pimples, blotches, eruptions, tumors, swellings, fever-sores and kindred complaints.

It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. C. Pecor & Co.

## Wonderful Cures.

W. D. Hoyt & Co. Wholesale and Retail Druggists of Rome, Ga., says: "We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by J. C. Pecor & Co."

## A Captain's Fortunate Discovery.

Capt. Coleman, sch. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free trial bottles of this standard remedy at the drug stores of J. C. Pecor & Co., and S. P. Campbell, & Co., of Aberdeen Ohio.

## TOBACCO MARKET.

Furnished by Glover & Dunnett, proprietors Louisville Tobacco Warehouse.

The sales on our market for the week just closed amount to 1,421 hhds., with receipts for the same period of 1,088 hhds. Sales on the market since January 1, amount to 38,945 hhds. We are again called upon to report another week of light receipts and sales, especially of bristly tobacco. The character of the offerings, if possible, have been poorer in proportion to the quantity than at any previous time during the year. The market has been animated and prices are a little stronger, for all grades, than they were last week. Old burleys have sympathized fully with the advance in prices of the new. The Spanish contract has been awarded to the same party who had it last year.

## ORGANIZED

And Ready for Business—Maysville Natural Gas Company Elects Board of Directors.

A meeting of those interested in the organization of the Maysville Natural Gas Company was held in the Council Chamber last night. It was well attended, and the organization of the company was effected.

The meeting was called to order by County Clerk Ball. Several subscriptions to the stock were reported, making in all \$4,070.

M. C. Russell moved that the company be organized with the stock then taken, and the motion was carried. It was next moved and carried that the organization be effected by the election of seven directors.

The following were placed in nomination: M. C. Russell, W. W. Ball, C. H. White, C. S. Leach, W. B. Mathews, P. P. Parker, R. A. Carr, Henry Ort, H. H. Collins, I. M. Lane, Dr. T. H. N. Smith, J. F. Robinson, F. S. Owens, J. H. Rogers, A. M. J. Cochran, John H. Hall, G. S. Wall, Robert Ficklin, S. B. Oldham, D. Hechinger.

Mr. Hechinger withdrew his name, stating that he had no time to attend to the business. Mr. Russell, also, withdrew his name.

It was decided to elect by ballot, and Messrs. Thomas A. Davis and M. C. Russell were appointed tellers. The balloting resulted in the election of the following: W. W. Ball, John H. Hall, Robert Ficklin, C. H. White, W. B. Mathews, F. S. Owens and I. M. Lane.

A meeting of the directors will be held in the County Clerk's office at 4 o'clock this afternoon for the election of officers and the transaction of other business.

DAN SIDWELL, who lives near Logan's Gap, tells the following toad story: "Last winter a toad got into a barrel of water at his house, and the water froze solid with the toad embedded in it. About three weeks afterwards the ice melted and his toadship jumped out and hopped off as if nothing extraordinary had happened."

C. P. HUNTINGTON has bought a big slice of real estate at Covington. He has closed a bargain for the Montgomery landing, coal yards, coal offices, and everything connected with Montgomery & Singleton's coal business, for \$150,000. A portion of the property was needed for the new C. and O. bridge, and the correspondent of the Enquirer says the purchasers paid about four times as much as all of it was worth.

This work of driving piles for the railroad along Front street is progressing as well as could be expected, considering the inconveniences with which the workmen have to contend. The outer row of piles will be completed in a few days, but about one third of the work only will then be done. Two additional rows are to be put down on the inside, but the job will not be so difficult, as the driver will be worked from the top of the bank.

The grand jury reported seven indictments yesterday. They are as follows: George Wood, carrying concealed weapons; Joseph Diener, selling liquor to a minor; Wm. Watkins, unlawful gaming; Duke Hill, cock fighting; Seymour Porter, same offense; W. W. Watkins, same offense; Wm. Fausler, keeping a house for chicken fighting.

Bench warrants were issued against the parties allowing them to give ball in the sum of \$100. The jury is still in session.

## EDUCATIONAL

The Duties and Responsibilities of Teachers, Trustees and County Superintendent.

Address Read at a Meeting of the Teachers of the Twelfth Educational District.

All intelligent teachers know their duties, and all conscientious ones perform them to the best of their abilities, but the fewest number fully realize the extent of the responsibilities resting upon themselves as instructors of the young. A good many teachers lack conscience more than intelligence; that is, they know their duties better than they perform them. If such thoroughly understood the responsibilities of their profession, they might hesitate to shirk its duties.

Teachers, in a great measure, make society what we find it. Character is mainly formed during pupillage—from six to twenty—and the children you are instructing to-day will form the society of their respective neighborhoods twenty years hence, and the state of that society will depend greatly upon the character of your teaching. You teach in two ways—by precept and by example—and as children learn more readily from example than from precept, your every-day conduct will give shape to the moral characters of your pupils, and, unless your example be worthy of imitation, your moral precept will be lost.

The precious child, the bright boy, is intrusted to your care and keeping to be educated. You mould the plastic mind; you instruct him in the various branches of learning; you bend the tender, pliant twig; you are shaping the life course of that boy, but how are you shaping it? For what are you shaping it? Are you shaping it for good, or evil? For time only, or for both time and eternity? Are you giving your entire attention to the cultivation of his intellect, or are you doing your whole duty by training him morally, physically, and intellectually? The moral training of the child is your first and most imperative duty, and herein lies your greatest responsibility.

But let us vary the programme and look a little farther to see if there are not others who have duties and responsibilities in the matter of educating the young. The County Superintendent of Schools is Chairman of the County Board of Examiners. He appoints the other two members, and it is the duty of this board to examine all persons who apply for certificates to teach the public schools of the county, and to refuse those who do not come up to the required standard of learning &c., or whose morals are defective. So you see that the County Board of Examiners are responsible for the quality of the teachers in the public schools in their county, except as to those holding State certificates.

Trustees, too, have important duties and grave responsibilities. They provide school rooms, employ teachers, make reports &c. When they fail to provide comfortable houses, or, through ignorance or stinginess, employ third class teachers for first class schools, which is often done, their responsibilities become apparent. Most generally, however, the County Board of Examiners are censured where second or third class teachers fail to give satisfaction in first class schools.

Parents owe it as a duty to their God, to their children, and to society to educate their children, and with free schools and free text-books for poor children, the responsibility for failing to do so is fearful. Some parents think to excuse duty and to ease conscience by sending their children to school a few days each session, just long enough to find out that the teacher is a very poor scholar, that his discipline is bad, that he is partial, and that he is of no account generally, seeking thus to throw the responsibility upon the teacher. Not long since, one of those chronic grumblers and fault-finders said to me, "Why is it that you give John Smith a certificate? He isn't no scholar." I did not ask the complainant if he considered himself a competent judge of John Smith's qualifications, but I was greatly tempted to do so. I have observed, and doubtless most of you have, that in nine cases out of every ten it is the illiterate man or woman who is first to discover the teacher's ignorance.

Teachers, yours is a high, a noble calling, second to none in the land. Your duties are many and your responsibilities are great, but your pay is shamefully insignificant, and your labors are not justly appreciated. However, a better time is coming; indeed, we are beginning to feel its effects now. The new revenue bill will add about fifty cents to the present per capita, and this will increase your pay. Four years ago the average salary of the teachers of this county—Fleming—was about twenty-one dollars per month; now it is about thirty dollars per month. This has been brought about mainly by rigid examinations, thus driving from the profession incompetent teachers, who could afford to work for trifling pay, but who were dear at any price. The friends of education are everywhere moving—are working earnestly, zealously in the cause—and a grand boom is in the near future. Study the duties of your profession diligently, perform them faithfully, and an approving conscience will go far toward supplying the deficiency in your pay.
